

# CONSERVATION VAC

The art of postponing the inevitable

Compact and light weight, specially developed to conservation standards with unique Conservation Lab features such as adjustable suction level, which allows the lowest vacuum on delicate fragile items, to full power for tougher cleaning jobs.

Mildew spores are locked in the HEPA Filter Cartridge by patented value preventing further contamination. A range of accessories are available (please order separately) to suit most applications.

Secure shoulder strap for hands free operation is designed for this model, as is a nylon carry bag for the vacuum and all the accessories.

Stretch hose without coil back pressure and soft rubber tools prevent chipping and scratching works of art.

Comes with hose and rubber nozzle as shown.

**DIMENSIONS:**

Length: 305 mm  
Width: 160 mm  
Height: 185 mm

WEIGHT: 2 kg

HOSE DIAMETER: 25.4 mm

POWER 230v / 500w

FILTRATION: HEPA / 99.97% Efficient at .3 Micron
